

### **Computer Aided Engineering drawing (CAED):**

*It was resolved unanimously:*

- (1) To teach concepts of Auxiliary planes in chapter 3.
- (2) To teach traces of lines, planes, sectors and developments i.e, in chapter 2,3 & 5
- (3) To allow student to practice as well as to consider solving projection of planes and solids using Auxiliary plane (Change of reference line) method in the examination.
- (4) Not to comment about the solutions by freehand sketching by the student, the students are to be allowed to draft the problems using the computers. It was resolved to maintain the norms of conducting the examination without offering any kind of help or making comments about the solution during the examination by the examiner.
- (5) In response to the faculty demand for placing the orders for the copies of the primer and the sketch book, clarification from Registrar, Visvesvaraya Technological University, Belgaum was sought online and the cost and placing the order on demand vide DD to the Registrar was announced. A fax was also received from the Registrar, Visvesvaraya Technological University, Belgaum during the course of the workshop.
